5r	

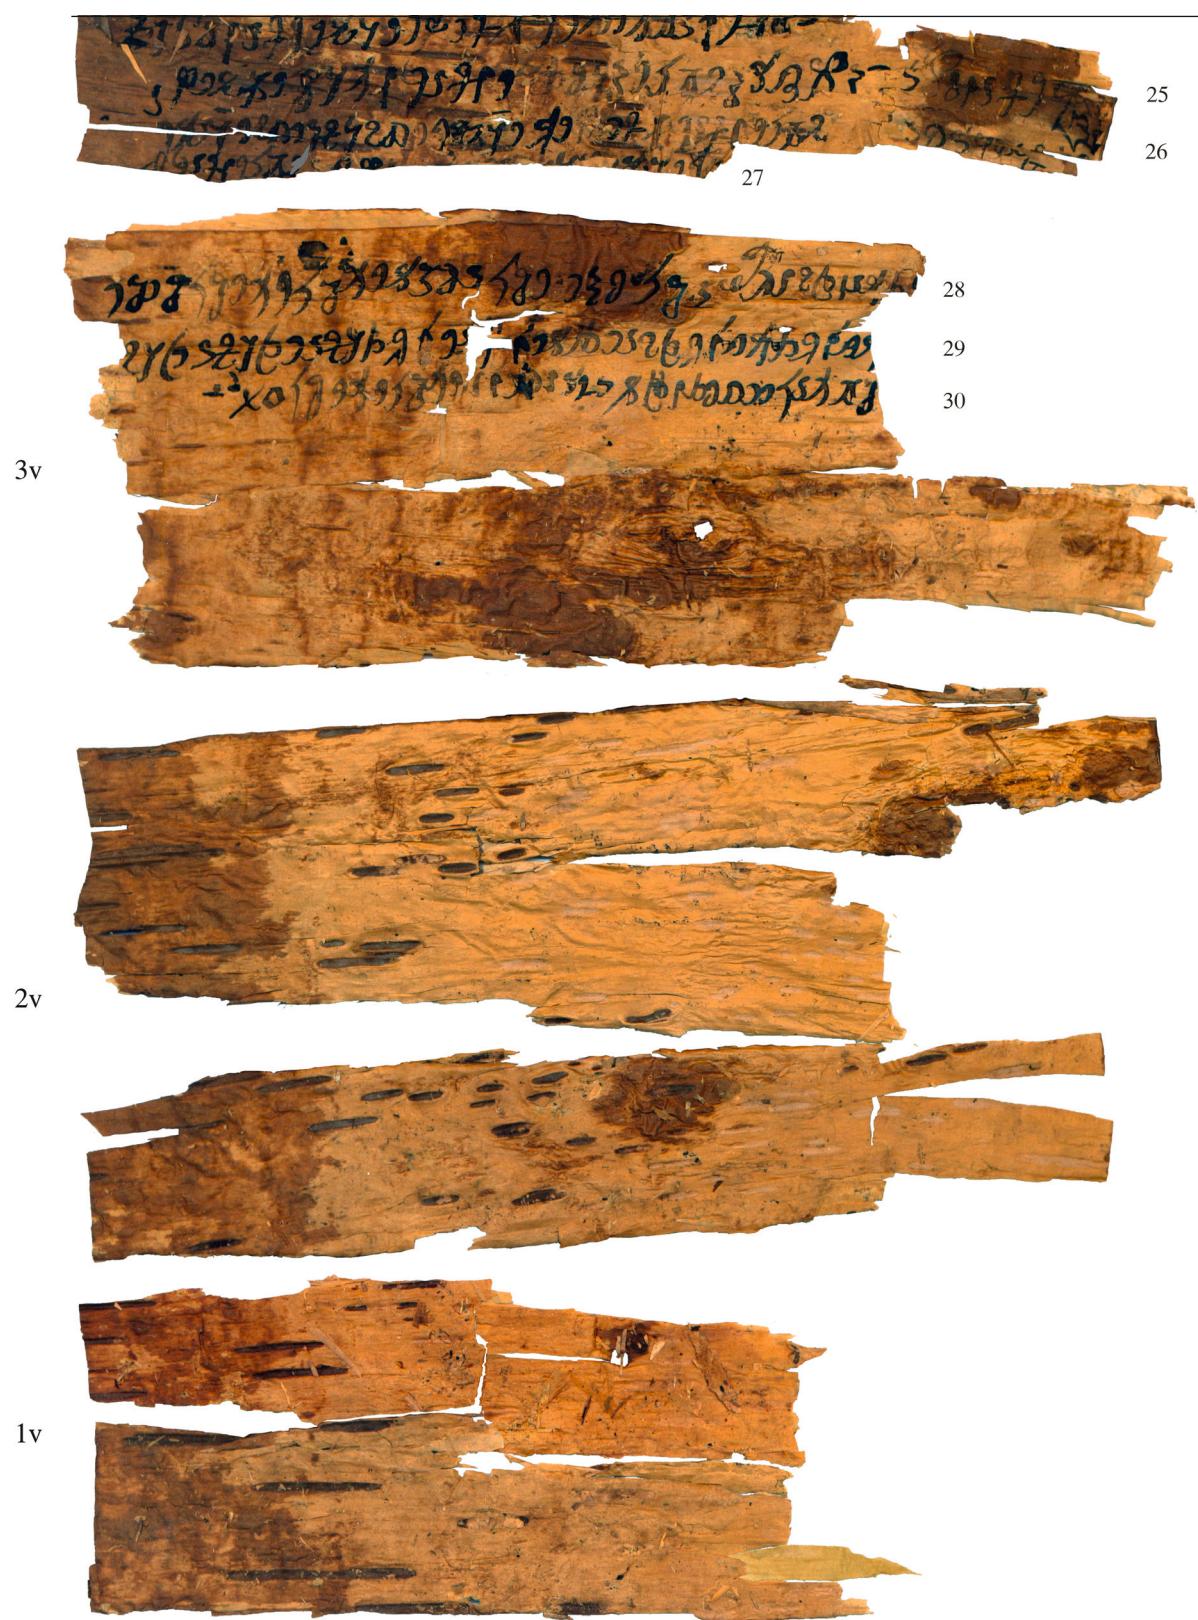

The image shows two fragments of ancient Egyptian papyrus, labeled 4r and 5r, arranged vertically. Both fragments are heavily damaged, with large sections of the paper missing. The text is written in a dark, cursive script, likely Demotic, and is reconstructed by modern scholars. The fragments contain approximately 30 lines of text each, with line numbers 27 through 53 listed along the right edge. The paper is a light tan color, showing significant staining and discoloration.

Pl. 4. BC 11, reconstructed, recto, lines 27–53 (scale 100%).

This image shows two fragments of ancient Egyptian papyrus, labeled 5v and 4v, arranged vertically. The fragments are made of aged, brownish paper and feature rows of ancient Egyptian hieroglyphic script. The script is written in two columns per line, with some lines being single columns. The fragments are highly fragmented, with many pieces missing or torn away. The lines are numbered from 1 to 24 along the right edge of the image. The top fragment (5v) has lines 1 through 11 numbered. The bottom fragment (4v) has lines 12 through 24 numbered. The script is in a cursive form of hieroglyphs, typical of later Egyptian writing.

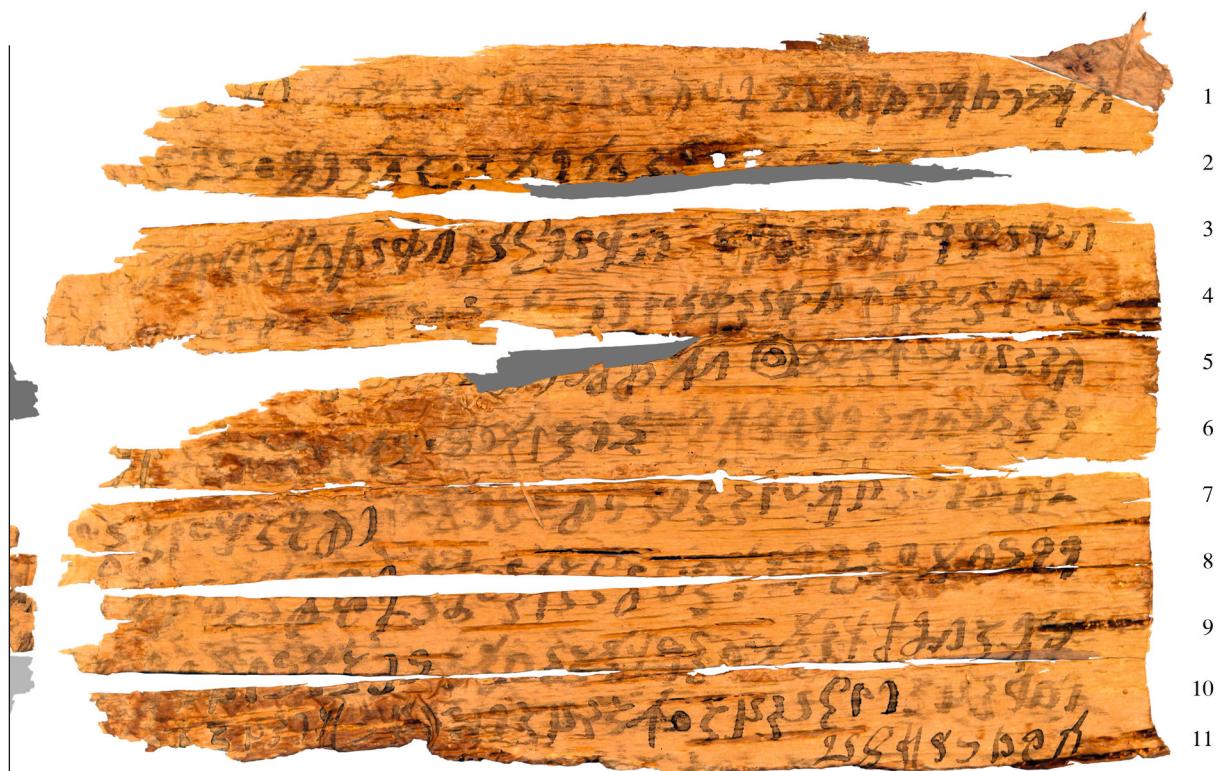

Pl. 5. BC 11, reconstructed, verso, lines 1–24 (scale 100 %).

Pl. 6. BC 11, reconstructed, verso, lines 25–30 (scale 100 %).

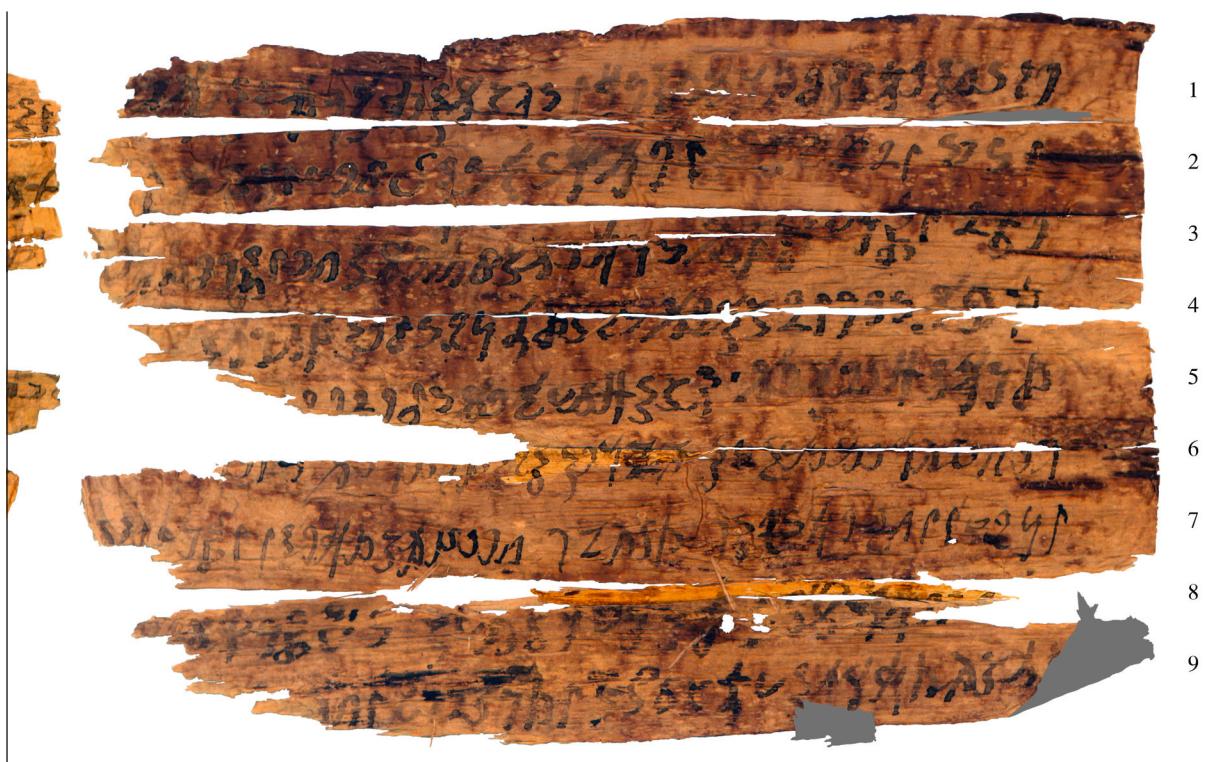

Pl. 7a. BC 6, reconstructed, recto, left half (scale 100 %).

Pl. 7b. BC 6, reconstructed, recto, right half (scale 100%).

Pl. 8a. BC 6, reconstructed, verso, left half (scale 100%).

Pl. 8b. BC 6, reconstructed, verso, right half (scale 100 %).

Pl. 9. BC 19, reconstructed, recto (scale 100 %) with presumed width.

Pl. 10. BC 19, reconstructed, verso (scale 100 %) with presumed width.
